geology today

Annual Index
Volume 9, 1993

A

Abercastle and Porth Gain Beds 197
accessory minerals 74
Acer cretaceum 215
acetic acid 104
acrothoracicans *140*,140
actinolite, asbestiform *see* byssolite
adamellite 26
adaptation, *Micraster* 183–4
Advanced Very High Resolution Radiometer *see* AVHRR
advertising, roadshows 152
African Plate 203
Agassiz plaque no. 3 206–7
AGER, D. obituary 83
  Roach and Texan building stones (let.) 96
  The Nature of the Stratigraphic Record (rev.) 117
agnathans, new group 215
Agrigan volcano (northern Mariana Islands) 117
air pollution 144–5
Akan volcano (Japan) 155
Akchagil phase 20
Akutan volcano (Aleutian Islands) 155
Alamagan volcano (northern Mariana Islands) 117
albatross feeding habits 52–3
albite *73*
algae
  blue-green 57
  Pre-Carboniferous coals 14–15
allanite 7 74, 73, 73–4, 74
ALLISON, R.J. (ed.), *The* Coastal Landforms of West Dorset (rev.) 38–9
  alluvial fan conglomerate 16
alteration
  deuteric 74
  hydrothermal 74
Altiplano, C Andes 66
Amateur Palaeontologist of the Year, Steve Etches 44
amber
  insect DNA preserved 219
  protists preserved in 3–4
ambulacral (def.) 183
ammonia bubbles 224
'ammonite wall', Digne *90*,90
ammonites *90*,90
  and architecture 47–8
  letter 216
amphibolite 30
Amplexopora persimilis 142
Amu Darya 19
Anak Krakatau volcano (Sunda Straits) 156
  analcime 58
Anatahan volcano (northern Mariana Islands) 117
  andesite 27
altered 74
ANDREWS, P.
  Dinosaurs here too 50–1
  Geothermal saga in New Zealand 132–3
angiosperms 221
  radiation of 214
animal hard parts 11
animals, large, evolution of 134
anthracite 15
Antuco volcano (Chile) 117
apatite 9
Api Siau volcano (Indonesia) 116, 156
aplite veins, red 228,229
Apatosaurus 51
Arabescato marble 169
Aral depression, flooding of 19
Aral Sea
  death of 18–22
  freshwater origin 19–20
  origin and Quaternary history 19–20
  ostracod faunal changes 20–2
  water mismanagement 19
Aral Sea-Caspian Sea connection 19
archaeology, and Earth sciences 204
Archaeopteryx, claw data 213
The Archers, geology of 207–8
Arenal volcano (Costa Rica) *69*,69,113,154
Arenig Stage 196
Argentina, fossil ownership 125 arthropods, euthycarcinoid 219
Ascuncion volcano (northern Mariana Islands) 117
ashfall 70
Aso volcano (Japan) 114,155
Aspheron phase 20
Association of Geoscientists for International Development (AGID) 124–5
asteroid rain 3
asteroids
  earth-crossing 54,202
  small Earth approachers (SEAs) 202
  stony or carbonaceous 95
atmosphere, on Io 122
atmospheric upwelling 134
Attenborough, Sir David, and RockWATCH 170–1
Aubrac volcano, Tertiary lavas 93,*94*
Australia
  BMR saved as AGSO 49–50
  Homage to St Barbara 89
  magnetized 43
  seismic monitoring upgraded *71*
  The last dog run 131–2
  The saving of 'Eric' 133–4
Australian Bureau of Agriculture and Resource Science 50
Australian Geological Survey Organization (AGSO) 50,*71*
Australian National Antarctic Research Expedition (ANARE) 116 authigenic (def.) 56
AVHRR *192*,192
Axelsro bioherm *188*
AYRTON, S., xenolith-without-a-zenolith (let.) 216

B

back-arc basin sequence 30
Baikal, Lake, vent + vent community 82
Baltic Shield, stable 189
BAMLETT, M., Another curious ammonite (let.) 216
banded-iron formations 27,122
bar-graphs 231
Baransky volcano (Kuril Islands) 155, *157*
barite 209
barium 209
Barremian Stage 30
Barren Island volcano (Andaman Islands) 117 basalt 23,27,56 tholeiitic 27
  see also Large Igneous Provinces
basins, subsiding 232
bauxite 33
bedding 230
Beecher's Trilobite Bed 97–102
beetles *221*
preserved colour patterns *219*
Beginner's guide to the field study of sedimentary rocks 230–3 belemnites 170
Bezymianny volcano (Kamchatka Peninsula) 117
Bibliography of New Zealand Geology 174
Big Bentonite 53–4
Big Cedar Ridge tuff, *in situ* flora 214, *215*
bioeroders 139–40
bioherms *188*,188–9
biostratigraphy (def.) 230
biostromes 189
Hemse Group *189*
Tofta *188*
bituminous coal 15
bivalves
  filter-feeding 139
  freshwater 167
Black Country Geological Society 162
'Black Granite' 86
black tin 233
black-band stratigraphy, Cretaceous 94–5 block and belt structure 30
Blue Mountain Inlier 31
Blue Mountain-Plaintain Garden Fault 31
  blueschist 30
bluestones
  letter 177–8
Stonehenge enigma 87
  transport to Salisbury Plain 163
Bogoria Basin, model for sedimentation in *60*
Bogoria Escarpment 56
Bogoria, Lake 56–61
  geothermal activity 56
  late Quaternary environmental changes 58–9
  limnology 56–7
  recent sedimentation 57–8
Bogoslof volcano (Aleutian Islands) 116
Bonny View Andesite 31
BOOMER, I., Sub-fossil

The following abbreviations are used in the index: def.=definition; Ed(s). =Editor(s); Lett(s).=letters; rev.=review. Figures and tables are given in *italics*.

Ostracoda and the death of the Aral Sea 18–22 borers chemical 138 main groups 139–40
boring worms *140*
Borings and bioerosion in fossils 138–42 borings and substrates 138–9 evolutionary history of borings 141–2 main boring groups 139–40
other bioeroders and their imitators 140–1
Bothrioichnus 141,141
bottom waters, anoxic 57, 58, *60*
Bouguer gravity low, Holyhead Bay 136
Bouma sequences defined 56 partial 58
BOWDEN, A.J., Book review, *Climate Modes of the Phanerozoic: The History of the Earth's Climate over the Past 600 Million Years* 198–9
Bowden Shell Bed 32–3
brachiopods 100,170,197
Brachiosaurus 129
braided rivers 91
Bridport Sands 223
Briefing 2–5,42–5,82–5,122–6,162–5,202–5
BRIGGS, D.E.G. and EDGECOMBE, G.D., Beecher's trilobite bed 97–102
Brissopsis lyrifera 183
Bristol Channel, major geological boundary 136
Bristol Museum, Rocky Road Show 148,217
British Association AGM at Keele 207–8 increase in funding 208
British Coal, holding geological data 125
British Geological Survey (BGS) 124–5 GHASP system 165 lacking data 125
Broken Shell Member 177
Brontosaurus 51
BROWN, G.C. *et al*, *Understanding the Earth* (rev.) 39
BROWN, Prof. G., obituary 83
Brown's Town Formation 32
browsing, by 'regular' sea-urchins 184
buckyballs (buckminsterfullerenes) 10
bugs *221*, 222
Bureau of Mineral Resources (BMR) 49–50
Burgess Shale 97
Burgsvik Sandstone 188
burrowing efficiency, *Micraster* 183–4,185–6
burrows, and formation of concretions in sandstone 224
Bushveld Gabbro 227
BUTCHER, N.E. Agassiz plaque no. 3 206–7 Sainsbury's in Craigleith Quarry, Edinburgh 126–7
byssolite *73*,75

C

calcite *35*
calcite cement 223 high-Mg 224
calcite precipitation 224, 225
calcium carbonate cementation of sandstones 223–6
calcium palmitate (fatty acid soap) 224
Calymene blumenbachii 202
Campanella marble 169
Canada one-stop geoscience shopping 202 What happened to Logan's silver fountain? 129–30
canals, and geology 165
Canlaon volcano (Philippines) 72,117
carbon 10
carbon dioxide 57,*145*,145 doubling of 146
carbonate concretions 223 growth rate 225 regular distribution within shell-rich horizons *225*, 225 shape of *225*,225 types of 223–5
carbonate muds 22
carbonate platform (def.) 189
carbonate ramp 188
carbonatite, occurrences increasing with time 95–6
Carboniferous Limestone 47, 108
Cardigan Bay, BGS use of explosives, Greenpeace protest (let.) 13
Caribbean Plate 30,31
cassiterite (Minerals explained 16) 233–5 alluvial 234,235 curation of 235 environments of occurrence 234 faking of 235 as a sedimentary resitate 233,234 sites for 234–5
cassiterite pseudomorphs *233*, 233–4
castle koppies *see* koppies
Castlewellan granite 169
Catellocaula vallata 142
CATTERMOLE, P., *Mars: The Story of the Red Planet* (rev.) 78 *Caulostrepsis* 140
caves Nottingham 6
see also Combe Down, Bath
Cayman Trench 30
Centropyxidae 93
cephalopod beaks, ingested by albatrosses 52–3
Cerastoderma 19, *21*, 22
Cerastoderma edule 20
Cerro Negro volcano (Nicaragua) *70*, 70
cetaceans, and albatross eating habits 53
CFCs 145
Chalk, The, and the Channel 123
A Challenging Edinburgh Fossil Site, Stan Wood 44
charcoal, fossil 17
Charmouth Ichthyosaur 166, 167
charnockite 168–9
Charnwood Forest 123
Charterline, and geology 124
chemocline 56, 59, *60*
chert banded *110* forms of 111 models of formation 112 origins of 110–11 tabular 112
Chert and Flint Research Group, Sheffield 109–13
Chile, volcanic activity 71, 115, 117, 155
China coal geology of 14–18 recent advances in coal prospecting 172–3
chlorite 27
chromite 28
chrysalis (pupa) 220
CHUGD (Committee of Heads of University Science Departments) 2
cilia 183
ciliary (def.) 184
ciliates, ellipsoid 93
Cipollino marble 169
CIS, Back to the USSR 52
Clarendon Block 30
CLARKSON, E.N.K. *see* McADAM, A.D. *et al*
claw curvature, and bird types 213
Climacograptus 100
Climactichnides 4
climate, and continental emergence 134
climatic change, due to withdrawal of water for irrigation 19
climatic-volcanic positive feedback mechanism 11
clinozoisite 72, 73, 74
Cliona 140
clionids 139–40,*140*
Cloudina 11
coal 144, 216 increased demand for 143 Permian 29 pollution from 144 production 14,*15* reserves in Britain 126 world reserves *15*
coal balls 16
Coal Measures 108 insects in 218
coal-distribution laws, new understanding of 172
coastal deposits, movement of 84
coastlines, eroding 164
cockpits Jamaica 32
cockroaches *219*
Colima volcano (Mexico) 117
COLLINS, C., Curry Fund and museum collection care (let.) 12–13
Colombia, volcanic activity 70–1,115 Columbia River basalts *214*
Combe Down, Bath, a mining problem 44–5
Commonwealth Scientific and Industrial Organization (CSIRO) 49–50 confining pressures 63
conglomerate alluvial-fan 16 matrix-supported 58
conodont zones 54
continental emergence 134
continental margins, passive, flooded 135
continentality, increase in 19
COOPER, J., St Barbara in N Britain (let,) 178
Copahue volcano (Chile/Argentina) 115,155,*156*
copper 174
COPUS (Committee on the Public Understanding of Science) 151
coral bleaching 146
coral identification 43–4
corals
colonial 211 rugose 189,*190* tabulate 189
Corennie granite 169
Cornuproetus 101
Correspondence 12–13, 96, 177–8, 216–17
Coso Mountains (USA) 69
Costa Rica, volcanic activity 69, 113, 154
